#### How to prepare for visit:

- Make sure your child is rested, fed, and ready to play/do activities.
- Prepare to be at this visit for 60 to 90 minutes (1 hour to 1.30 minutes.)
- We will have toys & books here, but you can bring your child's favorite toy, book, electronic games, or comfort item.
- Both parents are welcome to attend; however, it is okay for only one parent to be present.
- Bring child **only** to the visit. Since the visit time is lengthy, siblings may get bored, frustrated, or upset because the attention will not be given to them. If this is not possible and you have to bring siblings, please be sure that there will be an extra adult to go outside with siblings when testing is in progress. Please note: It is ok to bring infants, especially if they are nursing.
- Please do not wear perfume, cologne, or heavy scented lotions.

**We are looking forward to meeting you and your child. Due to the high volume of patients waiting to see Dr. Sakimura, we encourage parents/guardians to call our office directly if you need to cancel or reschedule appointment as soon as you are able to. Please note that missed appointments/failed to keep appointments (FTKA) are not rescheduled. Instead, parent/guardian will need to request a new referral from primary pediatrician to begin the process if still interested in an evaluation by Dr. Sakimura.**
