

## 2017 Napa-Solano Area Community Benefit Grants - \$874,402

### Kaiser Permanente in the Community

#### Kaiser Permanente Community Benefit

For over 70 years, Kaiser Permanente has been committed to improving the health of our members and the communities we serve. We focus on those areas where we have the greatest impact, supporting the most pressing and critical health needs in our communities. Kaiser Permanente grantmaking programs target select priorities designed to strengthen and enhance community programs and organizations that address the health needs of our most vulnerable residents.

The Napa-Solano Area grantmaking program supports local non-profit, public health, and human service organizations that improve the health of under-served communities in the Solano County communities of Benicia, Dixon, Fairfield, Rio Vista, Suisun City, Vacaville, and Vallejo, and the Napa County communities of American Canyon, Calistoga, Napa, Oakville, Rutherford, St. Helena, and Yountville.

#### Health Funding Priorities

Every three years the Napa-Solano Area conducts an extensive community health needs assessment to identify the health and social needs of our local communities. Our funding priorities for 2017 – 2019 were selected based on the data and community input we received, and include:

- Access to Care & Coverage
- Community & Family Safety
- Mental Health & Wellness
- Healthy Eating Active Living
