Please observe pedestrian crosswalks.
The Redwood City Police Department enforces traffic laws and parking regulations on our medical campus.

Directions to Lab and X-ray services from the Birch Building

We offer complimentary shuttle service to the Tower Building - please let us know if you'd like the shuttle to pick you up.

Or it is a short walk.

- Exit the Birch Building front doors and turn left and walk to the corner.
- When it is safe to do so, turn right and use the crosswalk at the corner of Marshall Street and Walnut Street.
- Then turn right on Marshall Street and walk on the sidewalk for one block.
- When you reach Marshall Court, use the crosswalk to get to the sidewalk and turn left towards the New Hospital and Tower Building.
- X-ray and Lab are located on the first floor in the Tower Building (which is the tall building to the right of the new hospital).

(To reach the Cypress Pharmacy, turn right out of the front lobby of the Tower Building. Walk down the path and the Cypress Building is on your left, with the Pharmacy on the first floor.)
