Section 1 – Introduction

This directory provides a list of Kaiser Permanente’s network providers. To get detailed information about your health care coverage, please see your **Evidence of Coverage**.

Your Primary Care Provider

You will have to choose one of our network providers who are listed in this directory to be your **Primary Care Provider (PCP)**. The term “PCP” will be used throughout this directory. Generally, you must get your health care services from your PCP.

Your PCP meets state standards and is trained to give you primary medical care. He or she will usually practice general medicine, also called internal medicine or family practice. Women may also choose specialists in obstetrics-gynecology whom the Medical Group designates as Primary Care Providers. At some facilities, you also have the option of choosing a nurse practitioner (NP) or physician assistant (PA-C) to be your PCP.

Your PCP will give you most of your care. If you need a specialist, your PCP will help you choose a doctor in that field and work with him or her as part of your health care team.

You can choose your PCP from any of our available primary care doctors, nurse practitioners, or physician assistants. Once you make your choice, it is effective right away. If you wish, you can change your PCP for any reason.

Choosing or changing your doctor

We believe that an important part of your total health is building a personal relationship with your primary care doctor, physician assistant, or nurse practitioner. He or she is your supporter for your health needs and goals, helping you with everything from preventive care exams and advice for healthier living to treating you when you’re sick.

Whether you’re new to Kaiser Permanente or a longtime member looking for a change, choosing a personal doctor to coordinate your care is easy. You can learn about each doctor’s certifications, specialties, languages spoken, interests, and more on **kp.org/finddoctors** to help you find the right fit for you.

If you want to make a switch, you can change your doctor at any time and for any reason.

Care for your unique needs

You can choose your personal doctor from one of the departments listed next.

- **Adult or Internal Medicine** (Internists)
- **Family Medicine** (Family practitioners)
- **Obstetrics-Gynecology** (Ob-Gyn)
- **Pediatrics** For infants, children, adolescents, and teens.

Nurse practitioners

At some facilities, you also have the option of choosing a nurse practitioner.

Nurse practitioners are registered nurses who have advanced education and training. They can diagnose and treat a wide variety of medical conditions, write prescriptions, order and interpret lab and medical imaging tests, and educate and give advice to members and their families. They practice with a doctor’s supervision and support according to carefully controlled procedures.

How to choose or change your doctor

Online

Go to **kp.org/finddoctors**. Find information on the available physicians and choose the one who’s right for you.

Phone

To select or change a personal physician or get information about practitioners and services please call 1-800-464-4000.

Getting Covered Care

For HMO members, you must use network providers except in emergency or urgent care situations or for out-of-area renal dialysis. If you obtain routine care from out-of-network providers, Kaiser Permanente will not be responsible for the costs.

For Kaiser Permanente HMO members, you must use network providers for care to be covered by our Plan except in emergency or urgent care situations. The “network providers” listed in this directory have agreed to provide you with your health care and vision services. You may go to any of our network providers listed in this directory; however, some services may require a referral. If you have been going to one network provider, you are not required to continue to go to that same provider. In some cases, you may get covered services from non-network providers.

To see a specialist, you usually need to get your PCP’s approval first. (This is called getting a “referral” to a specialist.) However, you do not need a referral to get specialty care from network providers in Ob-Gyn, optometry, psychiatry, and chemical dependency.

The following standards for appointment availability were developed by the California Department of Managed Health Care (DMHC).

If you prefer to wait for a later appointment that will better fit your schedule or to see the practitioner of your choice, we will respect your preference. In some cases, your wait may be longer than the time listed if a licensed health care professional decides that a later appointment will not have a negative effect on your health.

This information can help you know what to expect when you request an appointment.

Type of care	Appointment offered
Urgent care appointment	Within 48 hours
Routine (non-urgent) primary care appointment (including adult/internal medicine, pediatrics, and family medicine)	Within 10 business days
Routine (non-urgent) mental health care appointment with a practitioner other than a physician	Within 10 business days
Routine (non-urgent) specialty care appointment with a physician	Within 15 business days

The standards for appointment availability do not apply to preventive care services. Your practitioner may recommend a specific schedule for these types of services, depending on your needs. Preventive care services may include physical exams, vision and hearing tests, immunizations, health education, and prenatal care. The standards also do not apply to periodic follow-up care for ongoing conditions or standing referrals to specialists.

Timely access to telephone assistance

In addition, the following standards for answering telephone inquiries were developed by the DMHC. These standards require health plans to answer the following telephone inquiries within specified time frames.

- For telephone advice about whether you need to get care and where to get care, plans must answer within 30 minutes, 24 hours a day, 7 days a week.
- For customer service inquiries, plans must answer within 10 minutes during normal business hours.

Interpreter services at no cost to you

When you call or come in for an appointment or call for advice, we want to speak with you in the language you're most comfortable using. For more about our interpreter services in [Northern California](#) and [Southern California](#), call our Member Services Contact Center:

- 1-800-464-4000 (toll free for English and more than 150 languages using interpreter services)
- 1-800-788-0616 (toll free for Spanish)
- 1-800-757-7585 (toll free for Chinese dialects)
- 711 (TTY for the deaf/hard of hearing/speech impaired)

Bills from out-of-network providers

If you receive a bill from an out-of-network provider, you should not pay the bill. Send it to our Claims Department and they will let you know how much you have to pay.

Emergency and urgent care

If you have an emergency medical condition, call **911** or go to the nearest hospital.

Emergency care is for a medical or psychiatric condition, including severe pain, that requires immediate attention to prevent serious jeopardy to your health. When you have an emergency medical condition, we cover emergency care anywhere in the world.

For ease and continuity of care, we encourage you to go to a Plan hospital Emergency Department if you are inside our service area, but only if it is reasonable to do so, considering your condition or symptoms.

If you have an emergency, we will talk with the doctors who are giving you emergency care to help manage and follow up on your care. The doctors who are giving you emergency care will decide when your condition is stable and the medical emergency is over.

After the emergency is over, you are entitled to follow-up care to be sure your condition continues to be stable. Your follow-up care will be covered by our Plan. If your emergency care is provided by out-of-network providers, we will try to arrange for network providers to take over your care as soon as your medical condition and the circumstances allow. It is very important that your out-of-network provider call us to get authorization for post-stabilization care before you receive the care from the out-of-network provider. You will only be held financially liable if you are notified by the out-of-network provider or us about your potential liability.

Kaiser Permanente enrollees have full and equal access to covered services, including enrollees with disabilities as required under the Federal Americans with Disabilities Act of 1990 and Section 504 of the Rehabilitation Act of 1973, and in compliance with federal and state laws that prohibit discrimination based on disability.

Facility physical accessibility survey

We conduct physical accessibility surveys at certain facilities as required by the California Department of Health Care Services (DHCS). These surveys evaluate 6 areas of access: parking, building exterior, building interior, restrooms, exam rooms, and exam table/scale. For Affiliated Providers and Affiliated Locations, physical accessibility information may be publicly available or self-reported by such providers rather than surveyed by Kaiser Permanente. To help you understand how the survey determines if a facility is accessible for people with disabilities, the following are the levels of accessibility:

Basic access: The facility demonstrates physical accessibility for people with disabilities for each of the following 5 areas surveyed: parking, outside building, inside building, restrooms, and exam rooms.

Limited access: The facility demonstrates physical accessibility for people with disabilities for some but not all of the following 5 areas surveyed: parking, outside building, inside building, restrooms, and exam rooms.

Medical equipment access: The facility demonstrates that patients with disabilities have access to height-adjustable exam tables and weight scales accessible to patients with wheelchairs and scooters. Also indicated by the T symbol described below.

Key to physical accessibility symbols

In the listings, facilities that have received a physical accessibility survey will include symbols showing its accessibility under DHCS guidelines.

E = exam room: The entrance to the exam room is accessible with a clear path. The doors open wide enough to accommodate a wheelchair or scooter and are easy to open. The exam room has enough room for a wheelchair or scooter to turn around.

EB = exterior (outside) building: Curb ramps and other ramps to the building are wide enough for a wheelchair or scooter. Handrails are provided on both sides of the ramp. There is an accessible entrance to the building. Doors open wide enough to let a wheelchair or scooter enter and have handles that are easy to use.

IB = interior (inside) building: Doors open wide enough to let a wheelchair or scooter enter and have handles that are easy to use. Interior ramps are wide enough and have handrails. Stairs, if available, have handrails. If there is an elevator, it is available for public use at all times when the building is open. The elevator has enough room for a wheelchair or scooter to turn around. If there is a platform lift, it can be used without help.

P = parking: Parking spaces, including spaces designated for vans, are accessible. Pathways have curb ramps between the parking lots, offices, and at drop-off locations.

R = restroom: The restroom is accessible, and the doors are wide enough to accommodate a wheelchair or scooter and are easy to open. The restroom has enough room for a wheelchair or scooter to turn around and close the door. There are grab bars that allow easy transfer from wheelchair to toilet. The sink is easy to get to and the faucets, soap, and toilet paper are easy to reach and use.

T = exam table or scale: The exam table moves up and down and the scale is accessible with handrails to assist people with wheelchairs and scooters. The weight scale can accommodate a wheelchair.

PA = Participant Areas: Patients can get to and use all common areas with or without help.

PD = Patient Diagnostic and Treatment Use: Patients are able to access and use testing and treatment areas, and equipment.
